

Miss Sylvia Thomas – Principal of Banbury Aspirations Campus

02 July 2021

Dear Parent/Carer

The long arm of Covid continues to impact upon the school community here. We are so upset that national policy still requires us to ask children and staff to self-isolate and hope that there will be some change in this for September. We will be teaching live lessons for those isolating as we did from January to February this year.

As you are aware we had a range of exciting days coming up next week. Because so many students will now be at home we have decided to shift the dates as shown below.

New dates for your diaries

Wednesday 7 th July	Futures Institute <u>ONLY</u> Aspirations Day
Thursday 15 th July	Wykham Park and Futures Aspirations Day focusing on diversity
Friday 16 th July	Sports Day for the whole campus (all children come to school in PE kit for the day and we are selling BBQ food)

With cases clearly rising across the country and within our local area (we now have cases of parents testing positive for Covid which has not been the case for several weeks now) we will continue to try to prevent transmission by doing the following things as a school community.

- ✓ Maintain ventilation of rooms
- ✓ Continue to wear face coverings in communal areas such as corridors and the dining hall
- ✓ Sanitise hands regularly
- ✓ Take LFT twice a week (if you could help us by testing with your children so that they do the test as effectively as possible).
- ✓ Spend as much of our unstructured time as possible outside the building in the open air

On a much more positive note we look forward to the Year 11 prom tonight which is being held at Compton Verney as an outdoor event. It will be a sparkling highlight after an interesting week for the campus.

We wish you all well and hope that, if you are an England football fan, the result on Saturday is a win for the team which will undoubtedly lift the spirits of the nation.

Yours faithfully

Sylvia Thomas
Principal of Banbury Aspirations Campus
